HOKWE COMMUNITY HALL – AMASHANGANA BUSHBUCKRIDGE

- In November 2020 The Amashagana Traditional Council in Bushbuckridge was visited and consulted to identify the new project.
- Kgosi Eric Nxumalo and his council identified the need for a community hall where meetings can be held next to Headman Solomon Timpani's house in the Hokwe area. At that time meetings was held under a tree.
- There was little time before the end of the year and without waiting any time we started with the project.
- Within 3 weeks we erected a 10 x 5 meter hall with steel structure and roof, concrete floor and 1,5 meter high brick walls all around.
- It was challenging because there was no water in the area and we had to take water in 1000 litre tanks from Phalaborwa to use during the building process.
- After completion of the hall we also erected a wire fence separating the headman's house from the hall and installed a 5000 litre water tank to store water when it is available.
- The total cost of the project was R86 595.33
