2. HLAYISANI VADYUHARI ARTS & CULTURE PROJECT

- In August 2022 Dzumeri Traditional council was consulted to identify the new project.
- Hosi Wilson Mavunda and his council identified the need for a new building to host the Hlayisani Vadyuhari Art and Culture Project.
- The project was started on 07 September and completed on 25 October. We erected a 10 x 5 meter hall with steel structure and roof, concrete floor and 1,5 meter high brick walls all around.
- It was challenging because there was no water at the building site and we had to take water in 1000 liter tanks from Phalaborwa to use during the building process. We also had Support from Hoshi Mavunda to fill the water tank at the Tribal office while on site.
- After completion, we also erected a 1.8 meter wire fence with 2 gates around the property

AFTER

The word "Thanks" is written in a bold, purple, brush-stroke style font. It is centered on a large, textured orange circle that has a paper-like grain. To the left of this circle is a smaller, white, textured circular object with concentric rings, resembling a woven basket or a piece of wood. In the top right corner, a portion of a glass filled with orange liquid is visible, overlapping the orange circle.
